

AP Economics

Free Response Question Project

Project Summary:

Using the “Explain Everything” app on an iPad mini, students will complete and record their answer for a given College Board® Free Response Question (FRQ).

Upon completion, students will submit their recorded answer via their Google Drive.

Directions:

First, in class students will be assigned one free response question from a collection of six prompts selected by the teacher.

Second, students will use their understanding of microeconomic principles to plan and communicate their answers and rationale, including use of appropriate graphs if necessary.

Third, students will check-out an iPad mini from the Social Studies IMC desk and use the “Explain Everything” app to record their answer to the prompt. The recording should incorporate verbal and visual explanations. Click here to see an example.

Fourth, students will save their final recorded project using the following steps.

- ➔ Click “Export Movie”
- ➔ Click “More” tab
- ➔ Click “Google Drive”
- ➔ Tap iPad mini to login to your Westside Google account
- ➔ Click “Export” (green rectangle)
- ➔ Create a file with your last name and enter “OK”
- ➔ From your laptop, login to your Google account and in your Google Drive make sure to “Share” the URL link with me. Set your permissions to “anyone with the link can view” (See me if you have any questions or problems).

Project Due: Tuesday, December 10th!
