

# Adding Westside Google to your iPhone or iPad

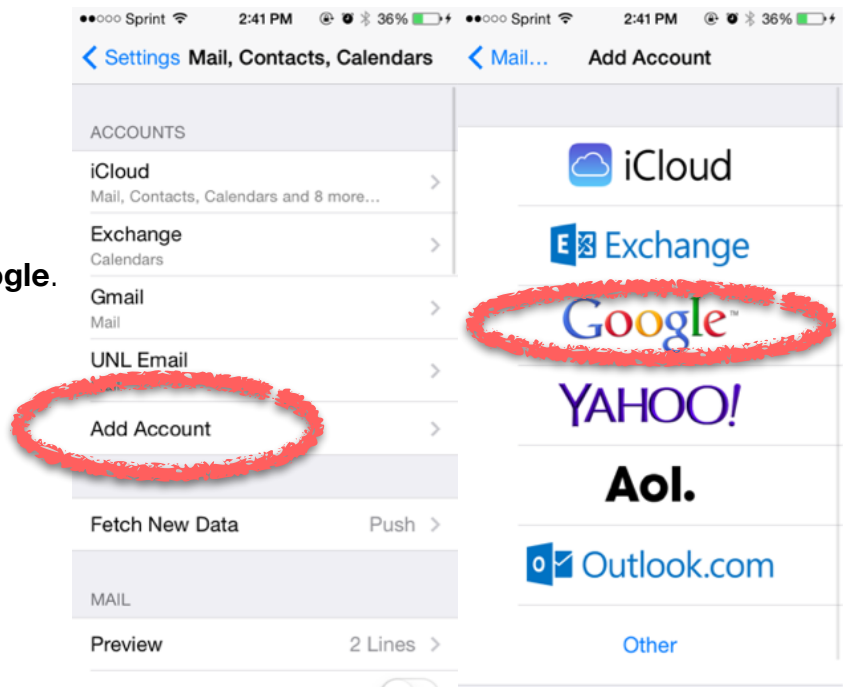

## Open up Settings

On your mobile device (iPhone or iPad), open up the settings application and select Mail, Contacts and Calendar.

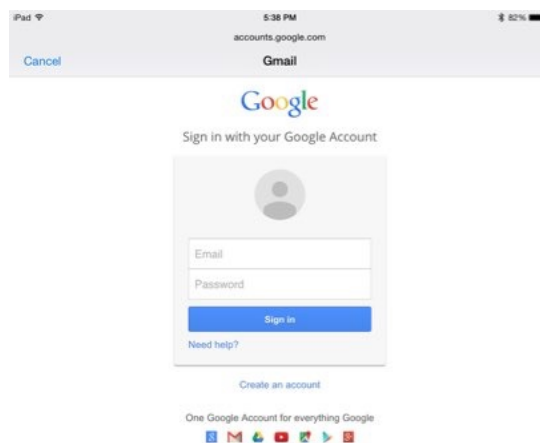

## Create your Account

Select 'Add Account' and then select **Google**.

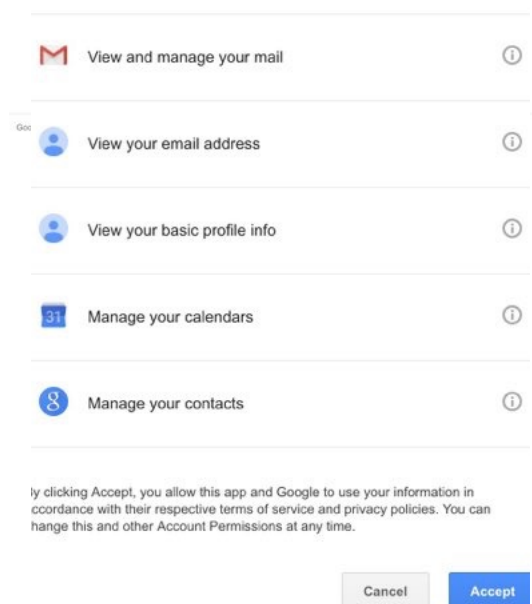

Enter your information in the form that pops up. Your email address is your google log-in (i.e., [last.first@westside66.net](mailto:last.first@westside66.net) and you password.).

When you are finished click 'Sign in'

↳ iOS would like to:

On the next screen, click 'Accept' to continue.

Lastly, after you have clicked 'Next' make sure everything is selected.

That's it! Email, Calendar, Contacts are now setup on your mobile device. Any calendar that is shared with you or you create will automatically be synced with your device and you will be able to multi-match email from the mail app.
